# Structured Cabling Solutions

The cable infrastructure in an office or building is a critical component of the entire network. Proper planning, design, installation, and maintenance of this infrastructure can have a positive impact on the company's day-to-day operations. As a full-service provider, our start-to-finish approach includes the following:

- ✓ Consultation
- ✓ Site Survey
- ✓ Design & Engineering
- ✓ Materials Supply
- ✓ Installation
- ✓ Certification
- ✓ Maintenance

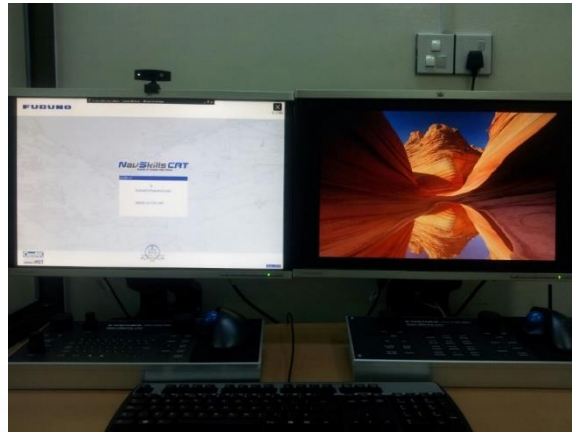

*We offer comprehensive solutions for all infrastructure types—CAT5e, CAT6, CAT6a, CAT7, Fiber Optic, and Wireless Networks.*

## Data Center Solutions

# System Solutions

# Network Solutions

# Security Solutions

# VoIP Solutions

# Maintenance Support

## Desktop Support

Our SLA is designed for customers who need short or long term support to reduce costs and improve performance levels. Customers will enjoy regular, consistent support for all their IT systems without having to go to the expense of employing a full-time technician.

Our technical professionals become a part of your corporate staff for the length of the contract, providing configuration planning, upgrade planning, operating system support and help desk functions as specified or as required to meet your organization's changing needs. When a problem is reported, our frontline IT Helpdesk agents will record and diagnose the case. They will then route the problem to solution engineers for remote or even onsite problem resolution

## Hardware & System Maintenance

In addition to the standard warranty coverage for your hardware provided by vendors, AMBIT offers extended warranties and maintenance services to protect your hardware investments and to minimize downtime due to hardware failure. Our flexible plans cover everything from computer hardware to enterprise appliances and provide fast, reliable and cost-effective support.

	Computer Products	Enterprise Systems
Product Coverage	Desktop, Notebook, Printer, Monitor, Server, etc.	Router, Switch, Firewall, VPN, etc.

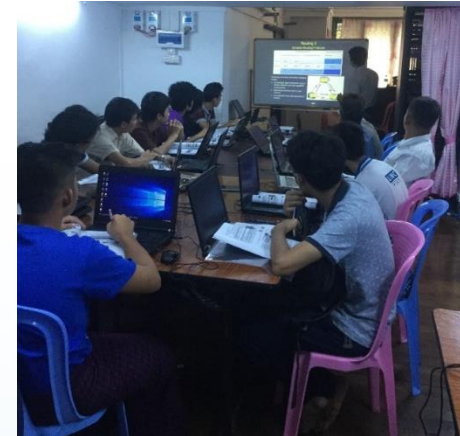

Basing on your specific requirements and business needs, customized service level uplifting is provided for your in-warranty or post-warranty equipment. Our Bronze, Silver, Gold and Platinum service levels provide you with flexible options for on-site response time and service hour coverage:

Service Level	Service Hours x Working Days	On-site Response Time
Silver	14 x 7	Next Half Business Day
Gold	24 x 7	4 Hours
Platinum	24 x 7	2 Hours

# Technical Training
